

Product identifiers on eBay.co.uk

Review the full list of main categories and subcategories in which you must include product identifiers.

Key:

- **Category:** this is the main category on eBay.co.uk.
- **Subcategory:** this is the subcategory within the main category on eBay.co.uk.
- **Brand:** this is to specify the item's brand.
- **Global Trade Item Number (GTIN):** a series of numbers assigned to most retail products. It includes European Article Numbers (EANs) and International Standard Book Numbers (ISBNs). [Visit gs1.org for more about GTINs.](http://gs1.org)
- **Manufacturer part number (MPN):** a number that, in combination with the brand, uniquely identifies a product. Manufacturers use these numbers to manage their product inventory and product lines.
- **Comments:** this is where we list any exceptions or specific requirements.

Note:

- Whenever you list an item in a category or subcategory that requires product identifiers, we'll highlight this for you in the listing flow.
- If you are listing an item in a category which is not listed in this document, you are not required to add product identifiers.
- Changes coming into effect from 29 February 2016 are marked in **red**.
